PROFESSIONAL SUMMARY

Innovative Full Stack Developer with 3+ years of experience in building dynamic, high-performance web applications. Skilled in both **front-end and back-end technologies**, including **ReactJS, JavaScript, Redux, NodeJS, .NET, C#, SQL, and MongoDB.** Expertise in designing scalable architectures, implementing **RESTful APIs**, and ensuring seamless integration across systems.

TECHNICAL SKILLS

● **Frontend:** React, JavaScript,Redux, HTML, CSS

● **Backend:** Node.js, .NET, C#, REST API

● **Databases:** MySQL, MongoDB, SQL Server

● **Web Technologies:** AJAX, JSON

● **Tools & Platforms:** GitHub, Azure, AWS, Asana, JIRA, Figma, Azure DevOps, TFVC

● **Cloud & DevOps:** Azure DevOps, CI/CD, GitHub.

EDUCATION

Bachelor of Science: Computer Science (3.7 GPA), 05/2021
Graphic Era University - Dehradun, India

PROFESSIONAL EXPERIENCE

Full Stack Developer, 10/2021 to 11/2024
Encubate Tech Private Limited – Remote
Responsibilities & Achievements:

- **Developed and launched the innovative OCTO feature** on the **FlexC** platform, streamlining recruitment processes through AI-driven automation and advanced candidate management functionalities.
- Built dynamic interfaces using **ReactJS, Redux, HTML, and CSS**, and developed secure APIs with **.NET and C#**.
- Optimized performance and scalability through **SQL Server** database enhancements and CI/CD pipelines on **Azure DevOps**.
- Ensured seamless functionality with robust testing, debugging, and cross-team collaboration.

Client Project: John Finch Computers Limited - UK

Responsibilities:

- Developed and maintained **RESTful APIs** using **.NET Framework and C#**, ensuring seamless data integration and system reliability.
- Built and enhanced **web-based** solutions focused on scalability and cross-platform compatibility using **JavaScript, HTML, and CSS**.
- Managed project workflows using **Azure DevOps** and version **control** with **TFVC**, ensuring efficient development and timely delivery.

Client Project: Inforica - Toronto, Canada

Responsibilities:

- Led the development of the **ITalent product**, implementing key features based on client requirements, from **frontend to backend**.
- Developed APIs using **.NET and C#** to support data **integration**, ensuring reliable performance and data integrity.
- Designed and optimized databases with **SQL and MongoDB** for efficient data handling and retrieval.
- Collaborated with product teams to meet business requirements and deliver scalable solutions.
- Ensured adherence to **agile methodologies**, participated in sprint planning, and conducted code reviews for quality assurance.

SOFT SKILLS

- Effective communication | Problem-solving | Team collaboration | Customer interaction

ACCOMPLISHMENTS

- **Reliance Foundation Scholarship** – 2017
- **State Topper in High School**, honored by Governor of Uttarakhand, Dr. Krishna Kant Paul, for academic excellence.

ADDITIONAL INFORMATION

- **Languages**: English, Hindi, Urdu, Arabic
- **Hobbies/Interests**: Coding, Hiking, Cooking
