PROFESSIONAL SUMMARY

- Full Stack Engineer with 4+ years of experience building scalable, accessible, and high-performance web applications using **React, JavaScript, TypeScript**, and modern UI engineering patterns.
- Skilled at collaborating with design, product, and engineering teams in an **Agile/Scrum environment**, contributing to sprint planning, backlog refinement, and iterative delivery.
- Strong background in API-driven development, integrating RESTful and delivering production-ready, secure UI features.
- Hands-on experience supporting end-to-end delivery including **feature testing, UAT validation, and deployments to staging and live environments**.

TECHNICAL SKILLS

Frontend	: React, TypeScript, JavaScript, Redux, HTML, CSS
Backend	: Node.js, API Integration, REST, C#, SQL, MONGODB, POSTGRE SQL
Cloud/DevOps	: AWS, GitHub Actions, Docker, CI/CD, Vercel Deployments, Netlify
Tools	: GitHub, Jira, Figma, Postman, VS Code, Docker, PG ADMIN
Practices	: Design Systems, Component Architecture, Documentation, Code Reviews, Performance Optimization, Agile/Scrum
Soft Skills	: Communication, Collaboration, Curiosity, Problem Solving, Attention to Detail

EXPERIENCE

Full Stack Developer – VerifyWise (BlueWave Labs)
Remote, Canada

Aug 2025 – Present

- Build scalable frontend features for the VerifyWise AI-driven verification platform using **React, TypeScript, and Next.js**, improving performance, reliability, and user workflows.
- Collaborate with product, design, and backend teams to translate requirements into intuitive, accessible user interfaces and reusable components.
- Actively contribute to **sprint planning, backlog refinement, task estimation**, and overall Agile delivery for new product features.
- Contribute to documentation, architectural discussions, and engineering recommendations for long-term product scalability.

Professional Development & Freelance Work
Remote, Canada

Nov 2024 – Jul 2025

- Built production-grade React and Next.js applications for small businesses with a focus on accessibility, SEO, and performance.
- Designed end-to-end UI flows, component architecture, and integrated public APIs using TypeScript for type-safe development.
- Managed **sprint-based delivery**, client demos, UAT walkthroughs, and production release cycles.
- Implemented CI/CD workflows on AWS, GitHub Actions, and Vercel for automated testing and deployment.

Full Stack Developer (Frontend-Focused) – Encubate Tech Pvt Ltd (FlexC)

Oct 2021 – Nov 2024

Remote, India

- Developed responsive and scalable features using **React, JavaScript, and TypeScript** for a recruitment SaaS dashboard.
- Collaborated with UI/UX teams to convert Figma designs into reusable, semantic, and accessible components.
- Participated in **sprint planning, daily standups, and release planning**, ensuring timely delivery of incremental features.
- Improved frontend performance by optimizing component rendering and leveraging memoization.
- Integrated REST APIs and improved error handling standards across the application.
- Contributed to automated UI testing coverage using Playwright and Jest.
- Supported **UAT cycles, bug triaging, hotfix releases**, and coordinated with DevOps teams for production rollouts.

Full Stack Developer – John Finch Computers Ltd (UK)

Contract via FlexC

- Built modular UI components using **React** while integrating .NET-based APIs for enterprise internal tools.
- Collaborated on **release cycles, QA testing, and UAT feedback incorporation**.
- Improved reliability by implementing UI test coverage and validating workflows before production release.

Full Stack Developer – Inforica (Canada)

Contract via FlexC

- Contributed to Azure-hosted enterprise frontends using TypeScript and React.
- Participated in Agile sprint cycles, story refinement, and deployment coordination.
- Collaborated with cross-functional teams to refine UI logic, test components, and ensure consistent UX across services.

PROJECTS

Portfolio Website

2024

React, JavaScript, Tailwind CSS — tech-swalehas-projects.vercel.app

- Designed and tested a fully responsive portfolio showcasing full-stack and QA projects.

Constructify Web App

2023

React, Node.js, MongoDB — constructifydev.netlify.app

- Developed and QA-tested a construction dashboard with authentication and CRUD features.

EDUCATION

Graphic Era University
B.Tech Computer Science

Dehradun, India
2017 – 2021

HONORS AND AWARDS

- **State Topper in High School** — Honored by the Governor of Uttarakhand, **Dr. Krishna Kant Paul**, for securing the highest marks in the state.
