PROFESSIONAL SUMMARY

- Software Developer with 4+ years of experience analyzing business and system requirements and delivering secure, scalable enterprise applications using **C#, .NET Core, Node.js, React, and SQL Server**.
- Strong background in **unit and integration testing, secure coding practices, defect resolution, and SDLC compliance** within Agile enterprise environments.
- Experienced in supporting **incident management, break/fix implementations, production deployments, system monitoring**.
- Proven ability to collaborate with **Business Analysts, Systems Analysts, QA teams, and project managers** to deliver solutions aligned with business objectives and enterprise technology standards.

TECHNICAL SKILLS

Languages	: C#, JavaScript, TypeScript, SQL
Frontend	: React, HTML5, CSS
Backend	: ASP.NET Core, .NET Web APIs, Node.js, RESTful APIs, LLMs
Databases	: SQL Server, PostgreSQL, MongoDB, MySQL
Testing & Quality	: Unit Testing, Integration Testing, TDD, Debugging, Code Reviews, Defect Resolution
Enterprise Practices	: SDLC, Secure Coding Standards, Risk Analysis, Scope Assessment, Incident Management, Root Cause Analysis
Cloud/DevOps	: Azure, AWS, Docker, CI/CD Pipelines, Azure DevOps
Tools	: JIRA, GitHub, Azure DevOps, Postman, Visual Studio, VS Code, JUnit, TDD

EXPERIENCE

Full Stack Developer – VerifyWise (BlueWave Labs)

Aug 2025 – Feb 2026

Remote, Canada

- Analyze business and functional requirements and translate them into technical solutions aligned with enterprise architecture and development standards.
- Develop and maintain backend services using **TypeScript (Node.js)** and frontend components using **React**, ensuring conformance to design specifications.
- Perform unit and integration testing; participate in peer code reviews to ensure quality, secure, and defect-free code.
- Support production environments through monitoring, incident analysis, break/fix enhancements, and performance tuning to maintain SLA targets.
- Communicate development progress, risks, and issues to stakeholders and escalate project impacts when required.

Professional Development & Freelance Work

Nov 2024 – Jul 2025

Remote, Canada

- Built secure full-stack applications using **Node.js, React, TypeScript** and deployed using AWS and Docker following structured SDLC practices.

- Strengthened expertise in **C# and enterprise application development**, focusing on secure coding, authentication, and performance optimization.

Full Stack Developer– Encubate Tech Pvt Ltd (FlexC)

Oct 2021 – Oct 2024

Remote, India

- Collaborated with Business Analysts and stakeholders to gather and analyze requirements for an AI-driven recruitment platform, contributing to scope estimation and risk assessment.
- Developed and tested RESTful APIs and microservices using **ReactJS, Node.js, MongoDB, and .NET**, ensuring compliance with enterprise coding and security standards.
- Executed unit, functional, and integration testing to validate adherence to technical design specifications.
- Supported UAT, managed production deployments, and resolved post-release defects, improving incident turnaround time.
- Participated in incident management, root cause analysis, and system performance tuning to maintain high application availability.
- Assisted in implementing monitoring and logging mechanisms to track system health and ensure SLA compliance.

Full Stack Developer – John Finch Computers Ltd (UK)

Contract via FlexC

- Developed and maintained enterprise applications using **.NET, SQL Server, and JavaScript** supporting 2K+ users.
- Completed small enhancements and break/fix implementations to address business requests and production issues.
- Conducted database optimization and debugging activities to improve system reliability and performance.

Full Stack Developer – Inforica (Canada)

Contract via FlexC

- Built and supported cloud-based applications using **.NET, Azure Functions, MongoDB**.
- Performed system configuration, authentication setup, environment monitoring, and backup support activities.
- Applied secure coding best practices to prevent common application vulnerabilities.

PROJECTS

Portfolio Website

React, JavaScript, Tailwind CSS — tech-swalehas-projects.vercel.app

- Designed and tested a personal portfolio to showcase full stack and QA-related projects.

Constructify Web App

React, Node.js, MongoDB — <https://threewaydrywall.ca/>

- Built and QA-tested a construction dashboard with user authentication and CRUD functionality.

EDUCATION

Graphic Era University
B.Tech Computer Science

Dehradun, India
2017 – 2021

HONORS AND AWARDS

- **State Topper in High School** — Honored by the Governor of Uttarakhand, **Dr. Krishna Kant Paul**, for securing the highest marks in the state.
